# Digital Wizard

Prepared by Monica Tasmin

Documentation for DreamBog's Digital Wizard

Name : Dreammy
Functions : Communicate and assist users interactively; Appear in welcome page, set-up activity pages, and pop-up notifications
Variants :

| Variant | Design | Use |
|---|---|---|
| Default |  | Welcome Page   |
| Confused |  | Unsaved changes pop-up |
| Angry |  | Incomplete activities pop-up   |

| | | |
|---|---|---|
| Relaxed | | Notify user pop-up<br> |
| Sad | | Notify hiatus users pop-up<br>  |
| Happy | | After the user finished setting-up their goals and activities<br>  |

Suggested changes to make in T3:

- Animated digital wizard to make the website more interactive and engaging
- Adding more variants to the digital wizard based on usage. Especially if the design homepage will be changed. The design of the digital wizard should be relevant to the activity. For instance, the user clicked the "sun" to edit trimester. A more interesting and interactive variant of the digital wizard can be shown there.
